🔗 Abhinandh KP — UI/UX Designer Portfolio

SUMMARY

UI/UX & Product Designer with **4 years** of experience designing user-centred digital products that enhance user experiences and drive business outcomes. Skilled in Product Design, UX research, product discovery, user flows, information architecture, wireframing, prototyping, interaction design, design systems, and Figma. Passionate about transforming complex problems into intuitive, accessible, and visually engaging web and mobile experiences while collaborating with cross-functional teams to deliver impactful products.

EXPERIENCE

UI/UX Designer Wisbato private limited

February 2023 - Present Kozhikode

- Designed and delivered UI/UX solutions across e-commerce, real estate, fintech, healthcare, education, corporate, and logistics industries, improving Customer Engagement and usability across client products.
- Conducted User Research and Usability Testing to generate Customer Insights that informed product strategy and roadmap decisions.
- Developed Wireframes, Prototypes, and high-fidelity UI designs to validate interaction patterns and information architecture.
- Collaborated closely with developers and stakeholders to ensure seamless implementation of designs and contributed to Design Systems for consistent UI components.
- Led multiple client projects across mechanical tools, car rental, textile, tourism, and physiotherapy sectors, driving improved user journeys with personas and user flows.
- Leveraged A/B Testing, Analytics, and Google Ads data to measure impact, validate hypotheses, and refine experiences for better Customer Engagement.

PROJECTS

Sails Mobile Application

- Focused on usability, clean navigation, and Interaction Design to improve Customer Experience.

E-commerce Website

- Designed an intuitive shopping experience for a clothing brand, created Wireframes and Prototypes, and defined Personas to guide product decisions.

Real Estate Platform

- Created a seamless user experience for financial management, including Prototypes and interaction patterns to simplify workflows.

Fintech Dashboard

- Created a seamless user experience for financial management, including Prototypes and interaction patterns to simplify workflows.

Healthcare Portal

- Designed interfaces for a multi-specialty hospital website, incorporating Usability Testing and accessibility considerations

Corporate & Logistics Website

- Developed UI solutions to enhance business operations, with attention to Information Architecture and user flows
